DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Wilcox et al. (6,304,066).

Wilcox et al. disclose a control circuit and method for maintaining high efficiency over broad current ranges in a switching regular circuit in Fig. 7. A power supply (300), push-pull switch (15), driver (20), output circuit (30) and control circuit (350). See col. 12, line 1 to col. 14, line 10.

Allowable Subject Matter

3. Claims 2-10 are allowed over the cited prior art.

Response to Arguments

4. Applicant's arguments filed 3/20/06 have been fully considered but they are not persuasive. Applicant argues that the Wilcox patent does not teach a circuit that as an output current increases, decreases a target level of the output voltage within the permissible variation range. Applicant's attention is Col. 4, lines 50-51 that states that the output load current increases, the voltage drop across R resistor 36B will decrease. See Col. 12, line 1 to col. 14, line 10 which also states the output voltage drops as the

load current increases and the output voltage will oscillate between the upper and lower thresholds values.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
